

NSN 6850-01-367-8457

Biological Agent

REQUEST A QUOTE

Part Number: 6850-01-367-8457

Quantity: Example: 5 Condition: Condition (Any)

Company Name: Company Name Phone: Contact Phone

Full Name: Your Name Email: Your Email

Company Privacy Policy Submit RFQ

Item Specifics

Federal Supply Class (FSC)	<a href="#">Miscellaneous Chemical Products</a>	
General Characteristics Item Description	Liquid form; 55 gallon drum	<a href="#">TEXT</a>
Special Features	Used to clean up crude oil,gasoline,diesel or other organic contaminants	<a href="#">FEAT</a>
Material Safety Data Sheet	BQSRK	MSDS

Item Identification | Miscellaneous Chemical Products

6850-01-367-8457, See ammeter; voltmeter; varmeter; wattmeter;			
Supply Class (FSC)	NSN Assignment	NIIN	Item Name Code (INC)
6850	Nov 20, 1992	013678457	00000 (Biological Agent)

Cross Reference Part(s)

<a href="#">OIL SPILL EATER II</a>	Biological Agent	<a href="#">Cage Code 0T391</a>
<a href="#">OSE II</a>	Biological Agent	<a href="#">Cage Code 0T391</a>

National Motor Freight

NMFC: A six position numeric code, which divides articles into groups or classes according to physical characteristics. The classification is based on truckloads vs. less than truckload.

Code Description	Code	Value	Meaning
NMF Description	NMFC	006040	Agents Etiological Infectious Subst
Less than a truck load rating	LTL	Z	No rating
Water Commodity	WCC	635	Chemicals, other than drugs or sundries
Type of Cargo	TCC	Z	No special type of cargo code applicable
Special Handling	SHC	9	Other or no special handling required (sh)
Air Dimension Code	ADC	A	Shipment is not a consolidation and does not exceed 84 inches in any dimension.
Air Commodity	ACC	C	Chemical corps items and all other chemicals not covered in other classificatons. note: when an item has a chemical proper shipping name and the item is sensitive, select the special handling code from this appendix (appendix a section i of dod 4500.32-r, volume 1) second position must be from table 85, part 1.
Air Special Handling	ASH	Array	Hazardous material (not required hand-to-hand receipt) including all regulated items other than special weapons and their components to include items not requiring a shipper's declaration for dangerous goods; e.g. radioactive materials excepted packages, certain biological substances, and items in excepted quantities.

Trade Control Compliance

Schedule B Export Code: A ten position numeric code that identifies an item exported overseas. this unique identification code is assigned by the U.S. Census Bureau.

Schedule B	Sch. B Description	Demilitarization	Classification	ITAR Regulation
		Non-usml/non-ccli - no demil or dod tsc required. department of commerce may impose licensing requirements to certain destinations. (note 9).	Unclassified	Not ITAR Controlled

MOE / End Users

Represents the subdivisions of a US governmental organization or an agency of the North Atlantic Treaty Organization (NATO), and other friendly governments and international organizations participating in the federal catalog program.

Country / Entity Name	MOE	DSOR	MOE Rule	NIMSC
Department Of The Navy	ZZ	No MOE rules found for this NSN.		

Material & Special Handling

Item material and handling information

Code Description	Value	Meaning	Possible Ingredients
HMIRS	Y	Indicates information is in the hazardous materials information resource system (hmirs).	<ul style="list-style-type: none"><li>Water</li><li>Nitrogen</li><li>Molasses</li><li>Nonionic Surfactants</li><li>Sucrose</li><li>Protease</li><li>Phosphorous (yellow) (sara iii)</li></ul>
Precious Metals Indicator	A	Item does not contain precious metal.	
Criticality Code	X	The item does not have a nuclear hardened feature or any other critical feature such as tolerance, fit restriction or application.	<ul style="list-style-type: none"><li>Yeast</li><li>Amylase</li><li>Anionic Surfactant</li><li>Malt</li></ul>

Management

	<b>Marines</b>
Stores Account	1 – Marine corps stock fund account item.
Combat Essentiality	
Management Echelon	G – General property materiel
Material Identification	
Operational Test	
Physical Category	

	<b>Marines Code Definition</b>
Stores Account (SAC)	Indicates the type of funds employed within the marine corps in supply support operations.
Combat Essentiality (CEC)	Establishes if an item is essential to the operational readiness of a weapon system or the conduct of a military mission, or that a functional part contributes to the tactical and essential operations of an item component or assembly, and its failure would render the item inoperable or incapable of fulfilling its mission.
Management Echelon (MEC)	Classifies items into categories by material and procurement echelon.
Material Identification (MIC)	Identifies method of accounting, degree, and type of control to be maintained for the item and to identify material by specific purpose, type, or classification for the war reserve system.
Operational test (OTC)	Indicates special procedures must be performed on an item of supply while under care-in-stores or as a part of the issue process.
Physical Category (PCC)	Indicates category for picking, packing, and marking items for shipment.

	<b>Navy</b>
Cognizance	9B – Naval inventory control point, mechanicsburg
Special Material	
Requisition Restriction	
Special Material Content	

	<b>Navy Management Code Definition</b>
Cognizance (COG)	Identifies the inventory manager (IM) and inventory control point (ICP).
Special Material (SMIC)	Categorizes material on the basis of requirements for source or quality control, technical design, or configuration control, procurement, stocking and issue control, special receipt, inspection, testing, storage, or handling
Req. Restriction (IRRC)	Item requisition instructions.
Special Material (SMCC)	Indicated that an item represents or contains peculiar material requiring special treatment, precautions, or management.
