24th January, 2019

To whom it may concern,

Kenya Pipeline Company Ltd started using OSEII; a hydrocarbon (petroleum) cleaning product in 2017. We used this product in some of our petroleum product ground contaminated sites. The product proved to be able to breakdown the petroleum product within a short time.

Over time we noted that OSEII is also biodegradable and non-toxic to the environment. We also used OSEII to clean up petroleum contamination on a water body and here it also proved to be effective.

Please feel free to contact us if you would like any additional information.

Sincerely,

C. KIPLAGAT

Chief Environment Officer

For and on behalf of:-
KENYA PIPELINE CO. LTD.
