Dear Sir/Madam,

RE: RECOMMENDATION LETTER

We appreciate the introduction to us of your product - OSEII - which has enabled the us to solve the long-lasting oil spillage problem on our airport ramps. This has enabled us to make significant progress towards complying with the environmental protection requirements ("The Water Quality Regulations, 2006" and "The Environmental Management and Co-Ordination Regulations, 2009).

As a major facilitator of oil products usage, airports are under obligation to take special measures that are essential to promote innovations and practices relevant for the conservation and sustainable use of the environment. This requirement is currently being achieved through this product.

OSEII has been effective and cost effective. We have not experienced any safety related occurrence on our personnel since we started using the product a likelihood of the efficacy of the product.

We would therefore, not hesitate to recommend the product (OSEII) to any organization or persons with similar needs.

Sincerely yours,

**GEORGE O. OTIENO
FOR: AIRPORT MANAGER**
