Re: The use of Oil Spill Eater II by Oil Spill Eater International Corporation (OSEI) for bioremediation of fuel oil spills/releases throughout the Commonwealth of The Bahamas

Pursuant to the provisions of the Environmental Services Act Chapter 232 which encompasses the following:

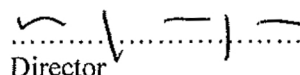

An Act to promote the conservation and maintenance of the environment in the interest of health, for proper sanitation in matters of food and drinks and generally, for the provision and control of services, activities and other matters connected therewith or incidental thereto

The Department of Environmental Health Services (DEHS) have no objection(s) to the granting of permission for the above captioned subject matter. This decision is based on the following:

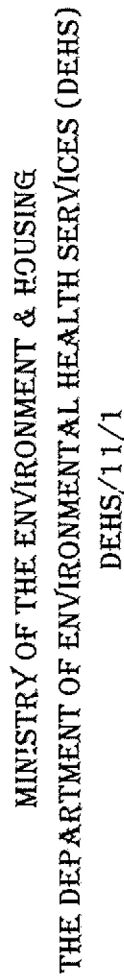

1. A meeting held on December 17, 2019 between representatives of your Company, OSEI and the DEHS' Director;
2. A satisfactory review of the following undertaken by DEHS:
 - a. Information contained on your Company's Website (www.osei.us), primarily product information contained therein;
 - b. Product information submitted to DEHS as part of a request for the above captioned on December 17, 2019; and
 - c. Product approval by the United States Environmental Protection Agency (USEPA) and other Caribbean jurisdiction(s).

You are hereby urged to promote your product and services in a responsible manner. Moreover, you are to ensure that the product use follows the best available practices and serves in the best interest of the people of The Commonwealth of the Bahamas.

Note that the DEHS' Director reserves the right to revisit any such approval if the need arises.

Director
